# ABOUT US

Infogen is a forward-thinking technology company specializing in **ICT solutions**, **IoT technologies**, and **customized software development**

# VISION

---

To be the leading provider of intelligent technology solutions  
Driving digital transformation through innovative ICT solutions,  
intelligent connectivity, and sustainable technology  
advancement.

# MISSION

---

Our mission is to empower organizations through advanced ICT, IoT, and intelligent software solutions that drive efficiency, safety, and data-driven decision-making. We deliver reliable, scalable, and customized technologies designed to meet the evolving demands of today's digital and industrial landscape.

# CORE VALUES

---

## INNOVATION

We create intelligent, future-ready solutions that transform operations and deliver measurable impact.

## EXCELLENCE

We are dedicated to delivering high-performance systems that optimize efficiency, reliability, and uptime in demanding environments.

## INTEGRITY

We act with transparency, take ownership of our work, and build trust through every interaction and solution.

## RESPONSIBLE

“We embed safety and environmental responsibility into every solution, because responsible innovation is smart innovation.”

# OUR SERVICES

## ICT Infrastructure

Design, implementation, and support of  
“We design, implement, and support robust IT and communication networks tailored for demanding environments ensuring reliable, secure, and seamless connectivity.”

## IoT-Based Solutions

Real-time monitoring and data collection using IoT sensors and devices to track equipment performance, environmental conditions, energy usage, and safety metrics.

## Fleet Management Systems

Intelligent systems for tracking, scheduling, and optimizing mining equipment and vehicle fleets to reduce downtime and boost productivity.

# OUR SERVICES

## Custom Software Development

Tailored software solutions for operational  
“We develop tailored software solutions for operational planning, reporting, inventory management, and automation designed to meet the specific needs of modern organizations.”

## Asset & Equipment Monitoring

Advanced tracking systems that monitor the status, location, and performance of assets to improve maintenance and extend equipment lifespan.

## Safety & Compliance Technologies

Digital tools and automation systems that enhance worker safety, enforce compliance, and monitor hazard zones in real time.

# OUR SERVICES

## Data Analytics & Reporting Tools

Powerful dashboards and reporting tools that convert raw operational data into actionable insights for smarter, faster decision-making.

## Fatigue Management System

A smart solution that uses AI and wearable device data to monitor operator activity, detect signs of fatigue, and deliver real-time alerts to enhance safety across mining operations.

# WHY CHOOSE US?

---

## TAILORED SOLUTIONS

“We design and deliver customized technology solutions tailored to each client’s operational needs, ensuring maximum efficiency and real-world impact.”

## End to End Capability

“From system design and development to deployment and ongoing support, we provide complete technology solutions under one roof.”

## Real World Operational Understanding

“We combine technology expertise with real-world operational insight, enabling us to deliver solutions that truly work in demanding environments.”

## RELIABLE SUPPORT & PARTNERSHIP

We go beyond technology delivery , we work closely with your team to provide ongoing support and adapt as your needs evolve.

# OUR TEAM

## **PATRICK PETER KITAMBO**

CEO & Founder

Patrick Peter is the Founder and CEO of Infogen Global Co. Ltd, a company committed to delivering smart, sustainable solutions across key industries. With a clear vision and hands-on leadership, he drives growth, builds strong partnerships, and leads with integrity and innovation.

## **KEVIN MWIJAGE ZILIMU**

Software developer

he has strong background in software development and industrial solutions. He is a software developer at Infogen, contributing to the development of smart, data-driven solutions that enhance safety, efficiency, and sustainability across operational environments.

## **RITHA MWAIPAYA**

Procurement Officer/Sourcing Specialist

Ritha Mwaipaya is a skilled Procurement specialist and Logistics Coordinator at Infogen Global Co. Ltd, overseeing the smooth flow of goods from suppliers to clients. She ensures timely deliveries, manages inventory movement, and coordinates logistics operations with precision. Her proactive approach and attention to detail keep the supply chain efficient and reliable.
